CBDT™ Recertification Guidelines & Application

Background

Certified Bone Densitometry Technologist (CBDT™) is a professional certification in the field of bone densitometry for technologists who perform densitometry scans. The CBDT™ credential signifies that an individual has passed an examination designed to meet established certification industry standards and best practices in the United States.

In the constantly changing medical environment, the use of limited-term certifications assures consumers, clients and other members of the public that ISCD certification holders continue to meet the ISCD competency criteria by keeping their skills and knowledge up-to-date. 

Earning the CBDT™ is the first step in ongoing professional development to consistently upgrade knowledge. There must be a procedure in place to assure that the technologist continues their education in central bone densitometry and recertification is that vehicle.

It is this background that forms the basis of the CBDT™ Recertification Program. The CBDT™ recertification guidelines provide a framework that will allow an individual to continue professional development beyond the examination phase of the credential. Such continuing education demonstrates ongoing professional development. Please note that it is solely the responsibility of the individual to pursue continuing education in the field of bone densitometry and to submit application for recertification in a timely manner.

I. Determining your Recertification Options

<table>
<thead>
<tr>
<th>Eligibility</th>
<th>Valid for</th>
<th>Method of Renewal</th>
<th>Credits Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current Certified Bone Densitometry Technologist (CBDT™)</td>
<td>Worldwide</td>
<td>3 Years</td>
<td>CME/CE Credit submission or Take CBDT Examination</td>
</tr>
</tbody>
</table>

OPTION 1: Recertify by Application

To recertify by application, copies of applicable CE’s, application, and the recertification fee must be received by ISCD no later than December 31 of the year of your expiration date. Applicable CE documentation must include 24 Category A CE’s or Category 1 CMEs in the field of bone densitometry, osteoporosis or metabolic bone disease; may include any of the credits listed in Table B, and must include a minimum of two separate educational activities.

OPTION 2: Take the Certification Exam

If the applicant has not accrued the required 24 Category A CE’s or Category 1 CMEs, or if the applicant’s certification has expired, the certificant must take the CBDT™ exam.

If you require an extension, the request must be submitted in writing along with a copy of your current ISCD Certificate PRIOR to the certification expiration date. Submit to the attention of Certification Administrator at ISCD HQ.
II. Length of Certification
The certification will be valid upon renewal for the following three calendar years.

III. Non-Renewal of Certification
If you have not renewed your certification by January 1, after the year the recertification was due or have not contacted ISCD for an extension, you will no longer be certified as a CBDT™ as of February 1 after the year the recertification was due. You will be notified by letter that you are no longer to use the designation CBDT™ nor are you to display your certification certificate. Your name will be removed from the CBDT™ registry. Failure to comply with this revocation of your certification will be considered a breach of the certification ethics and expose you to ethics sanctions.

IV. Educational Requirements for Recertification:

A. General Requirements
(1) Continuing education credits must be earned and recorded as 24 Category A CE’s or Category 1 CMEs in the field of bone densitometry, osteoporosis or metabolic bone disease; may include any of the credits listed in Table B, and must include a minimum of two separate educational activities.

(2) Continuing education credits may not be carried over from one recertification cycle to another

(3) Continuing education credits must come from a minimum of two separate educational activities.

(4) To receive credit for academic coursework and presentations, please submit a course outline and learning objectives. For papers, please submit the title page, an abstract and an explanation of your role in the research. For books, please submit a copy of the title page and table of contents and a statement of your role.

B. Educational Activities

RECERTIFICATION APPLICATION

*Incomplete applications will be returned unprocessed.

When applying, be sure to:

1. Include a copy of your current ISCD CBDT™ certificate
2. Complete the Recertification Application
3. Include appropriate recertification fee with the application.
4. Provide copies of official documents in support of no less than 24 contact hours from at least two separate skeletal health-related CE activities

Please Print)

STATEMENT OF UNDERSTANDING
I hereby apply for Recertification to the International Society for Clinical Densitometry. I understand that Recertification depends upon my successful completion of continuing education hours as established by the ISCD Education Department and submission of all required verifications or passing the Certification Exam. I also understand that, for research and statistical purposes only, the data from my application may be used in a non-identifying manner.

I further understand that certification is distinct and separate from membership in ISCD, and that membership in the organization requires a separate application and fees.

AUTHORIZATION AND RELEASE
I hereby authorize the International Society for Clinical Densitometry to make any inquiry of any agency, facility, organization or individual for any and all additional information which might be necessary to fully and properly evaluate my application for Recertification.

I hereby release and hold harmless the International Society for Clinical Densitometry, its Board of Directors, its Officers, its employees, and agents from any and all manner of suits, actions, claims, and judgments which might arise from such efforts to further document the statements and claims I have made in this application or in the processing of consideration of same.

I further acknowledge, understand, and agree that any falsification or misrepresentation of information by me or others regarding my experience and/or qualifications will be sufficient reason for denial of my application or for withdrawal of certification at a later date.

I further acknowledge that as a:

☐ Technologist:
  I maintain licensing or other registration requirements as specified by:
  Local regulatory agency:

Qualifying Programs:
Technologists – Only programs that are awarded Category A CE credits or Category 1 CMEs in the field of bone densitometry, osteoporosis or metabolic bone disease; may include any of the credits listed in Table B, and must include a minimum of two separate educational activities to meet the requirements towards CBDT recertification.

Instructions: List each educational activity in the spaces provided. Continuing Education hours must have been completed after your most current certification/recertification date and before the certification expiration date. CE or CME hours will NOT be accepted without copies of proper verification (i.e., certificate/letter of verification/attendance) for each program listed.
