

ISCD Endorsement of Other Societies Positions Policy

- It is appropriate for the ISCD to consider endorsing recommendations and/or position statements from other professional societies. Such endorsements may include the field of skeletal health assessment and/or therapeutic interventions.
- ISCD will not endorse recommendations that come from a specific company (e.g. pharmaceutical, device manufacturer) nor will ISCD weigh in on specific reimbursement issues related to drug coverage by insurers.
- The procedure for approval would have the Executive Committee assign the requested endorsement to the appropriate committee (SAC, Public Policy (PP) etc.) depending on the topic. If so approved by a majority vote of the appropriate committee, final approval would require a majority vote by the Executive Committee and subsequent 2/3rds majority vote of the ISCD Board of Directors.

Approved by the Board of Directors, July 2008
